

COVID safe measures (as of 24 February 2022) for facilitating site visits include:

- Adhering with WH PPE guidelines
- Complete attestation on entry
- Be vaccinated with three doses
- Undertake a RAT test – at Sunshine these can be accessed via the Marquee at the JKWC entrance. At other sites, this would need to be at security entry points and security would need to be notified prior to arrival of the request for a RAT
- Visits should be restricted to the minimum timeframe required to perform the task/function
